

WALDEN LOCAL ARTWORK GUIDELINES

Artwork received via Email

Email files to: sales@waldenlocal.co.uk

Please state your company or name in the subject box.

Acceptable file formats for artwork (recommended resolution of 300dpi)

- PDF files (saved at PDF/X-1a:2001 or Press Quality)
- Adobe InDesign files (Mac) (up to vCS6)
- Adobe Illustrator files (Mac) (up to vCS6)
- Adobe Photoshop EPS/TIFF/JPEG files (up to vCS6)

Please note: Microsoft Word files are not an acceptable format for artwork other than supplying raw text.
PDF files cannot be modified once received.

For images to be implemented into artwork

For photos -

- EPS • TIFF • JPEG • Raw digital camera images

Please make sure the image is of a suitable resolution to be scaled to target size at no less than 200dpi.

For logos/graphics/vector images and any files including text -

- EPS • TIFF • JPEG

Please make sure the image is of a suitable resolution to be scaled to target size at no less than 300dpi.

Colour images to be sent CMYK if possible - we will not accept responsibility for incorrect output of your artwork where colours have not been converted to CMYK.

Fonts

A wide range of common fonts are used by the Walden Local. Should documents contain fonts not held by the Walden Local, we reserve the right to substitute any font for the nearest available. Font compatibility problems can be overcome in a number of ways, including rasterizing and creating outlines.

We recommend using a type size of no less than 7pt. Small type and detail should ideally be reproduced in one colour only.

The registration of such matter cannot be guaranteed, as the slightest movement during printing will result in a colour fringe.

Reversals should be made using a minimum of colour especially under 11pt type size.

Removable Media

The Walden Local will accept the following forms of removable media.

- USB Memory • CDs
- We can acquire photos from most digital cameras providing you supply the USB cable with the camera.
- We can acquire photos from most camera memory cards.

Information

To ensure an efficient service, when supplying documents via removable media please include a print of the document.

This will enable us to check the file on output.

Proofing

Proofs are available on request.

Colour output

Finished artwork should be supplied in CMYK. The Walden Local will not accept responsibility for incorrect output of your artwork where colours have not been converted to CMYK or for colour variation due to converting digital images from RGB to CMYK.
